- ⧻ Shut-off valve
- ⧻ Traps under sinks in the kitchen, bathroom and laundry room
- ⧻ Sinks, showers and toilets
- ⧻ Laundry room, kitchen and bathroom venting systems

EARLY DETECTION PREVENTS MORE EXPENSIVE ISSUES IN THE FUTURE

Sewer line and water main breaks, plumbing leaks and water heater failures can be hugely expensive and disruptive events. This is especially true when the leaks start underground or behind walls and aren't noticed until after significant property damage has been sustained.

Being a Vito Services' Service Club member is one of the best ways to prevent these costly inconveniences. A fully trained and licensed plumber will perform annual, thorough inspections using a detailed checklist to ensure you know about any potential problems before they occur.

Every member also gets a 15% discount on plumbing services.
