

Income Guidelines for Assistance via the Lead Pipe Replacement Assistance Program

The water supply line running to your home is a public utility. If it is determined to be lead, the city will pay to replace it. If you have lead pipes in your home, however, you may be responsible for some of those costs.

While every DC property owner can get **50% of costs covered** (not to exceed \$2,500), regardless of income, some residents will qualify for **80% to 100%** assistance based on their household size and income.

| HOUSEHOLD SIZE | ASSISTANCE LEVEL 1 | ASSISTANCE LEVEL 2 | ASSISTANCE LEVEL 3 |
|----------------|--------------------|--------------------|--------------------|
| 1 person | \$70,600 | \$88,200 | No Income Limit |
| 2 people | \$80,650 | \$100,800 | No Income Limit |
| 3 people | \$90,750 | \$133,400 | No Income Limit |
| 4 people | \$100,800 | \$126,000* | No Income Limit |
| 5 people | \$108,900 | \$126,000* | No Income Limit |
| 6 people | \$116,950 | \$126,000* | No Income Limit |
| 7 people | \$120,350 | \$126,000* | No Income Limit |
| 8 people | \$121,300* | \$126,000* | No Income Limit |

ASSISTANCE PROVIDED

The three levels of assistance provided through the LPRAP:

| ASSISTANCE LEVEL | PERCENTAGE OF COSTS COVERED |
